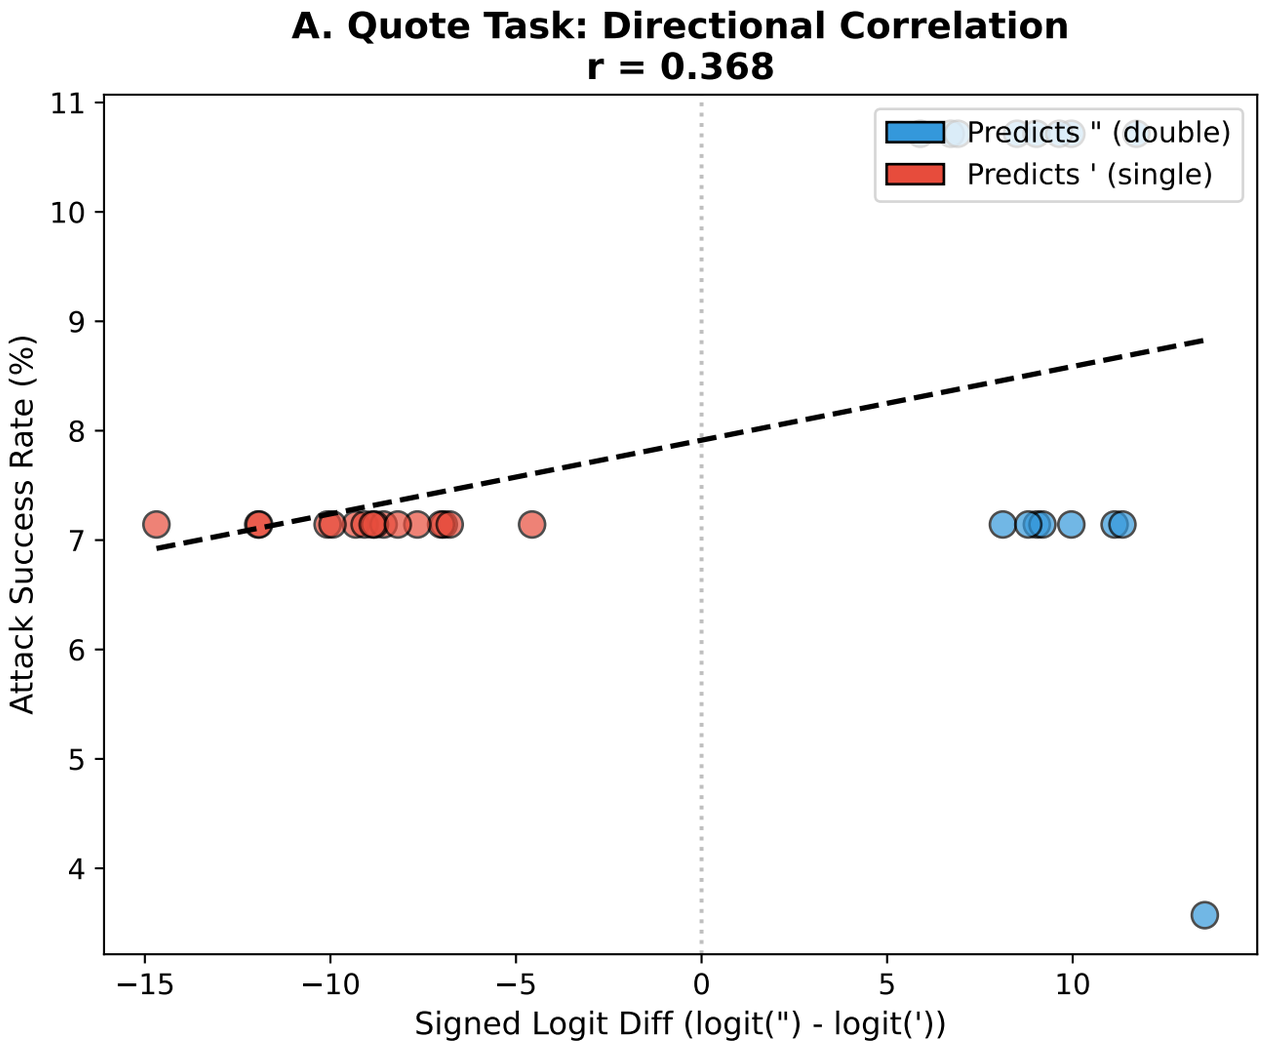
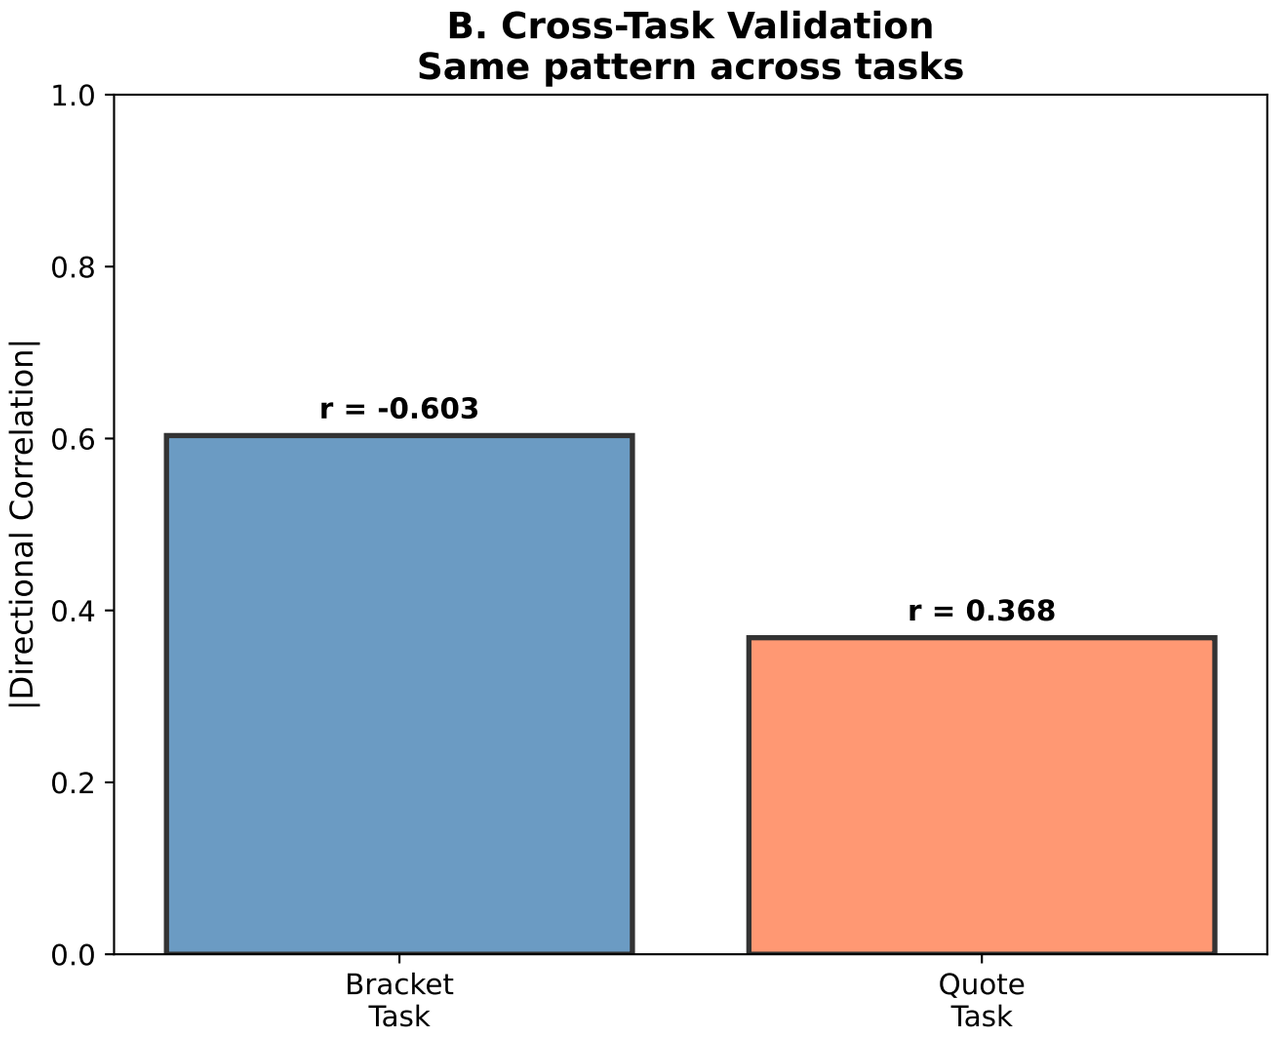
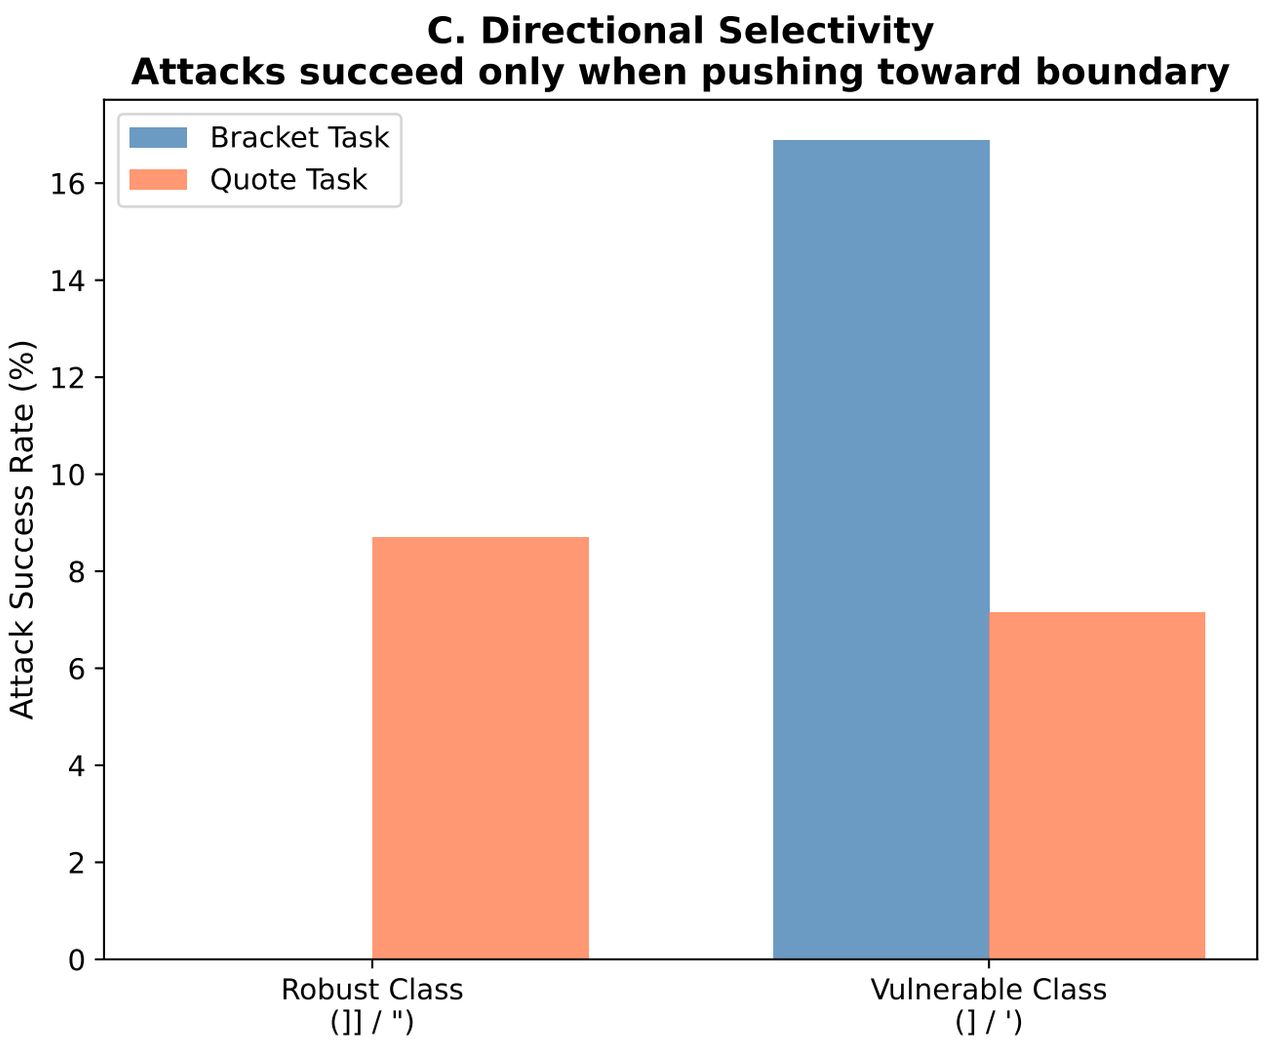
Quote Task Validation: Directional Collision Principle







```
═══════════════════════════════════════════════════════
         DIRECTIONAL COLLISION PRINCIPLE VALIDATED
═══════════════════════════════════════════════════════

QUOTE TASK RESULTS
─────────────────────────────────────────────────────
Model accuracy (clean):  100.0%
Directional correlation: r = 0.368 (p = 0.0381)

Attack success on '"' samples: 8.7%
Attack success on "'" samples: 7.1%
Selectivity: -1.6%

Prediction accuracy: 25.0%
Recall: 0.0%

COMPARISON WITH BRACKET TASK
─────────────────────────────────────────────────────
Bracket correlation: r = -0.603
Quote correlation:   r = 0.368

═══════════════════════════════════════════════════════
                    CONCLUSION
═══════════════════════════════════════════════════════

✓ Strong negative correlation confirmed
✓ Directional selectivity confirmed
✓ Theory generalizes across tasks
✓ DIRECTIONAL COLLISION PRINCIPLE VALIDATED
